

# Lower Columbia College

## Nursing Program

### Student Learning Outcomes Achievement Data

The “% agree” for each outcome was calculated based on the number of respondents who either agreed or strongly agreed with the item addressing each outcome when compared with the total number of respondents. Average score was calculated based on a 4-point Likert scale where 4 = strongly agree, 3 = agree, 2 = disagree, 1 = strongly disagree, and 0 = not applicable or no opinion.

#### 1. Demonstrate critical thinking by applying objective, valid methods of inquiry and problem-solving to draw rational, ethical, and coherent conclusion in nursing practice.

All graduates must achieve this to pass, per the clinical/practicum evaluation tool.

**Student Point of Leaving Survey Results:** *The nursing program enhanced my critical thinking abilities.*
