

Instructional Assessment
June 4, 2015
Library 103 – 3:30 pm
Agenda

Members: Brad Benjamin, Merry Bond, Dana Cummings, Jim Dillinger, Jim Franz, Wendy Hall, Armando Herbelin, Amber Lemiere, Stefanie Neill Natalie Richie (recorder)

Agenda Items:

- **Fall Assessment Day** – The fall Assessment day will be held on Thursday, Sept. 17th in HSB 101. A request was made to continue providing Chromebooks for departments to use during future assessment days.

Agenda items will include:

- Review Summer Institute findings and efforts;
- CANVAS presentation showcasing features available for streamlining data collection. Presenters to include: new eLearning Director & Language & Literature department;
- A1 - B1 Mission & Outcomes;

If needed a planning meeting could be arranged on Monday or Tuesday of Fall In-service week.

- **Artifact Collection** – There is a need for additional Interpersonal Communication artifacts. The Industrial Technology department submitted a collection and requested a copy to be returned to the faculty. Most faculty will have a collection of artifacts closer to finals week and will submit at that time. Another call for artifacts will be emailed out over the next two weeks. Brad will work on consolidating the request email. Interpersonal communication seems to be one of the more difficult global skills to assess, it was noted to revisit videotaping options during the next cycle. Discussion was held on the possibility of sharing student's global skills assessment captured in CANVAS with departments who have a more difficult assessing the desirable global skills (ENGL sharing data with MASP for identified students). Wendy explained this could be done, but would need to be faculty driven since the course spaces are owned by faculty.
- **Spring 2015 Assessment Day recap** – Discussion is complete.

Next Meeting: Fall 2015 (3rd Thursdays of every month)

Adjourned: 4:00pm

Our Mission:

The mission of Lower Columbia College is to ensure each learner's personal and professional success, and influence lives in ways that are local, global, traditional, and innovative.
