

Instructional Assessment Committee

Minutes

October 12, 2017

Attending: Brad Benjamin, Jim Franz, Wendy Hall, Armando Herbelin, Amber Lemiere, Holly McShane, Lucas Myers, Stefanie Neill, Jennie Myhnier (tenure track obligation)

Debrief - Fall Assessment Day:

- Feedback received indicates some faculty want to go to more than one session
- Multiple sessions in outcomes writing, and more helpers needed (to reduce wait time)
- Potential session-rubric development

Lang & Lit Extraction Data:

- Amber felt the extraction tool worked really well; English department size is helpful in success of trial of extraction tool
- L&L used a shared essay rubric for grading student work

NWCCU update:

- Oct. 17-19, 2018 Site Visit
- Wendy discussed how some universities separate out their course outcomes, when we combine. Should that be something we look at in the future?
- Clackamas CC did an interesting faculty survey. Wendy asked how she could get information from faculty before her April deadline. Amber noted that she would not be opposed to video capture. Brad will talk with department chairs and have them talk with their departments.

Winter/Spring Assessment Planning: continue with L&L and Armando's data extraction tool, writing outcomes workshop

Artifact collection for Summer 18: Numeracy
